# About Us

"With a legacy spanning over **four decades,** Productivity Systems International Inc. specializes in sophisticated system solutions for secure material handling and processing across various high-security industries."

01

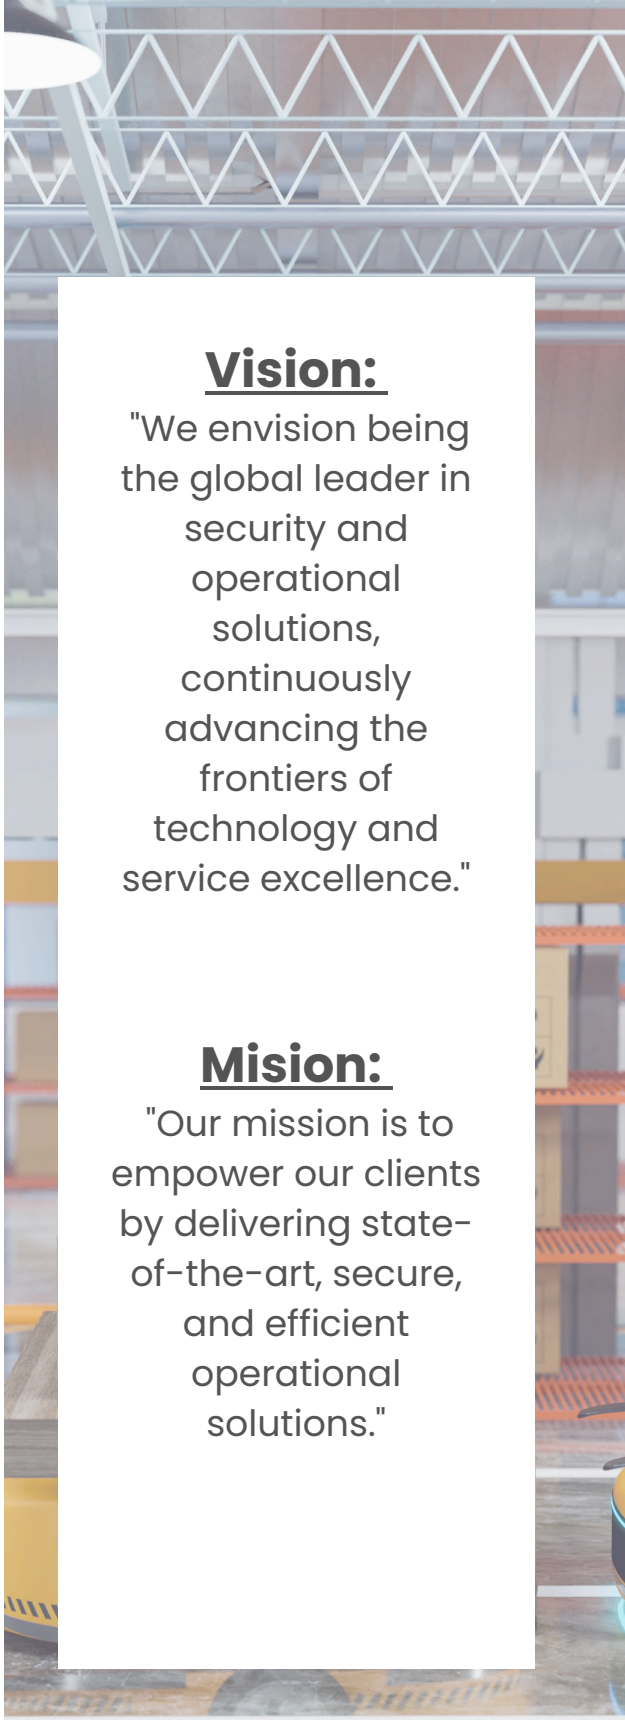

**Specialized in High-Security:** PSI designs advanced systems for secure material handling in sectors like banking and government.

02

**Innovation Leader:** PSI leverages cutting-edge technology to enhance operational efficiency and security.

03

**Established in 1980:** With over four decades of experience, PSI has a long-standing reputation in the industry.

## Vision:

"We envision being the global leader in security and operational solutions, continuously advancing the frontiers of technology and service excellence."

## Mision:

"Our mission is to empower our clients by delivering state-of-the-art, secure, and efficient operational solutions."

# Our Services

1

## Material Handling Systems

Customized design and implementation of automated and semi-automated systems, optimizing workflow and material flow efficiency.

2

## Security Systems

Comprehensive security solutions including access control, surveillance systems, and intruder detection tailored to protect high-value operations.

3

## Control Systems

Advanced control systems for integrated operations management, ensuring seamless production and security processes.

4

## Data Telecommunications

Robust data communication systems that secure and streamline the exchange of information.

5

## Cash Processing and Destruction

State-of-the-art cash handling, processing, and destruction systems designed for financial and government institutions.

6

## CashNet

Innovative currency distribution analysis and management solutions.

7

## Facility Design and Distribution:

Expertise in facility layout design and optimization to enhance operational efficiency and security.

8

## Mail and Package Handling Systems

Secure and efficient mail and package management solutions for office buildings.

# Competitive Advantages

**- Innovative Technologies:**
Leveraging cutting-edge technology to provide tailored solutions that meet the unique needs of our clients.

**- Industry Expertise:**
Decades of experience across a variety of sectors, enabling us to offer solutions that are both practical and pioneering.

- **Commitment to Quality:**
Our dedication to the highest standards of quality and security is evident in every project we undertake.

# Our Projects

**Global Reach and Projects:** PSI has engaged in numerous international projects involving major design and implementation for central banks, commercial banks, and high-security facilities worldwide. Notably, they have carried out projects across various locations, including the **United States, Colombia, Hungary, China, Kuwait, Thailand, Azerbaijan and Brazil.** These projects range from new facility design and renovations to the implementation of sophisticated systems and technologies for secure operations.
